Revenue Department

[illegible] No. 3834/2/30, dated 17th November 1930.

Land - Cantonments - 'poramboke' and 'waste' - Need for classification.

G.O. No. 2416, Revenue, dated 20th August 1914, lays down inter alia that lands in the usufructuary possession of the Cantonment authorities (i.e. in effect), the Government of India) include all waste lands in the Cantonment area. Consequently, in view of rule 5 (a) of the Secretary of State's Land Rules, all waste lands in Cantonments which existed as such on 1st April 1921 should be deemed to be in the possession of the Government of India. [illegible] has arisen on the part of the military authorities as to the position, in respect of possession, of those lands which by the usage of the Revenue Department of this Government are termed 'poramboke' lands. It has recently been explained to the Government of India that 'waste lands' do not include 'poramboke' lands; poramboke lands in Cantonments as elsewhere, are, and remain, vested in the local Government. Moreover, it is open to this Government at any time to reclassify as poramboke any land which has been classed in the revenue registers as waste, whether assessed or unassessed, and thus in effect to remove such land from the control of the Cantonment authority. The Government of India therefore have asked for an assurance from this Government that they will not make any such transfer without previously consulting the military authorities. This Government are willing to give such an assurance, but before doing so they think it desirable that the classification of land as [illegible] or [illegible]

area in question should be established on a basis which will be satisfactory both to themselves and the government of India, For this purpose they desire that in the areas in this Presidency which were Cantonments on 1st April 1921 a special investigation should be undertaken in order to discover whether any lands (survey fields or portions thereof) which are now classified as assessed or unassessed waste should be transferred to poramboke, and vice versa. As a result of this investigation lists of (a) Porambokes, (b) Assessed Wastes and (c) Unassessed wastes, should be drawn up to be sent to the General-Officer Commanding-in-Chief, Southern Command, for acceptance or, if necessary to the Government of India, The Board of Revenue is requested to submit definite proposals for carrying out this work in the Cantonments which existed on 1st April 1921 at

Collr's reports

Rc. 1 (Cs) B.5922/30-3, dated 14-3-1931.

The Board has consulted the Collectors concerned and submits a summary of their reports in the matter.

2. The Collrs. of Chingleput and Trichinopoly only apply for special staff for the recl assification work:-

Chingleput ... 3 I.I. for 2 months.

Trichinopoly... do. for 2 months.

3. As regards the procedure to be adopted the Collr. of Malabar suggests that the preliminary work of preparing lists of lands, making inquiries etc. may be done by the revenue or the settlement staff and that final lists may be drawn up after inspection of the lands by a Committee consisting of the R.D.O., Chairman, Municipal Council, and an officer nominated by the Officer Commanding. The Board considers that the appointment of a committee to do the work is unnecessary as the object is only to see what the position is, before an assurance is given to the Govern ent of India. In any case, the suggestion of the Collr. of Malabar to have the Chairman, Municipal Councils, the Committees is superfluous, as the interests of the Municipalities are not involved. The Board suggests that preliminary lists of the lands may first be drawn up by the ordinary revenue staff from the Government registers in the following form:-

Cantonment of

S.No.	How registered in the accounts.	Whether any alteration in the classification is necessary and if so, for what reasons.	
		R.I's. remarks.	Tahsildar's decisions.

The Rev. Inspector may make enquiries and record notes against each land, if re-classification is necessary. The Tahsildar may then inspect the lands and embody his decision against each. Final lists re-classifying the lands in accordance with the Tahsildar's decision may then be drawn up and, after approval by the Board and the Government may be sent to the General Officer Commanding for acceptance or, if necessary, to the Governmentof India. The Board considers that the Tahsildars may well be trusted to do a work which is of the same kind as, at resettlement, is done in detail by the Special Deputy Tahsildars. In the Malabar district, the preliminary lists may be prepared by the settlement staff and the final lists may be drawn up, after inspect ion by the Spl. Sett. Deputy Tahsildars.

The Collr. of Bellary states that a list of Govt. lands was prepared in 1930 in connection with the proposal regarding the exclusion of the Cantonment area within the municipal limits, that many of the lands are those set apart for the use of the community

and are used as such and that the regular staff will attend to the work of revalidation, if it arises in future. The Board considers that the work contemplated by the Govt. should be carried out now in the Bellary district also, as the list of lands prepared in 1960 was not apparently prepared with view to their correct classification.

5. The Collr. of Bellary stated that there are no assessed or unassessed waste lands in the old encroachment of Hichinopoly and proposed that the proposed re-classification is in respect of (1) lands registered as belonging to the Local Government (Collr's reference to G.O. No. 1580 Mis. S. dated 18-3-1960, and (2) the lands mentioned in the list now submitted by him which were not reported previously. The Board is not sure whether the Collr's classification is correct, as the Government in the Secretariat and the Board of Revenue (Govt. of India) are not clear about the lands mentioned in the list forwarded to the Collr. but the Collr. with his letter No. 1307, dated 17-1-62

6. The Board is of opinion that there is no need for a special revenue inspector to do the work in Hichinopoly. The number of fields to be inspected is small and the work involved will not be available. In Chingleput, however, the work has to be done in 5 Taluks and the Board recommends that the employment of a special Revenue Inspector on Rs.35-60 and a peon of Rs.15-1 may be sanctioned for two months. The cost will be met from the provision in the Budget estimate for 1962-63 under "22.0.General Administration - Other establishments - Taluk establishments - Duty of establishments -

Voted -Temporary.".

Land -cantonment -Bellary - poramboke and waste classification - list submitted

Ref. Board's Nos. B. 5922/30.6 dated 15.4.31 and 30.6.31.

Enclosed is a statement showing the reclassification of poramboke and assessed lands in the Cantonment of Bellary. In respect of partial fields in Cantonment limits, approximate extents are noted in the remarks column.

2. The areas fit for cultivation in certain poramboke lands are also furnished in the statement. The cultivable portions are reported to be in compact blocks for purposes of sub division and assignment. Though fit for cultivation they are very poor lands which could never pay ground rent and municipal taxes. It is unlikely that any part of them except small patches near tanks and wells will come under cultivation.

Land- Cantonment, Bellary- porambokes and wastes- classification.

Ref:- Board's B.No.5675/31-1 dated 14-10-31.

S.No. 310 of Bellary is wrongly classed as camping ground in the Revenue accounts of the village. It is not a camping ground but is part of the village site of a hamlet. It has never been used as a camping ground. What is used as a camping ground is the land attached to the barracks and old Hospital; where at the present moment, a Volunteer Camp is being held and many tents have been pitched.

2. Portions of S.Nos.596,597,601 and 701 D of Bellary fit for cultivation may be subdivided at the time of assignment. As the measurements of the fields are angular the sub division work will be entrusted to the Deputy Surveyor when any applications are forthcoming. If the Government of India wish to have them subdivided for the purposes of sale in auction, they should, I submit, bear the cost of survey. But I doubt whether they would fetch anything in auction. It is land on margin of cultivation and would not be worth cultivating on payment of assessment and Municipal tax even if the

Memorandum No.3162 D/31-1, dated the 12th December 1931.

C...onment - Bellary - Porambokes and wastes - Classification - Board's Ref.No.B.5673-31-2, dated 20th November 1931.

The Government pass the following orders on the proposals submitted by the Board of Revenue in its Reference quoted abo for the classification of lands now registered as 'poramboke' and 'waste' in the old cantonment of Bellary.

(a) S.No.652. The portion of this field occupied by the vanka should be classified as "vanka poramboke" and the remaining portion of the field should be classified as "assessed waste".

(b) S.Nos.356 and 701 D. The Revenue Inspector's remarks against these two fields are "Hillock-quarry" and "Quarry" respectively. The Board of Revenue is requested to report whether the portions of these two fields which lie within Cantonment limits are used as quarries and if so by whom a whether any revenue is derived by this Government from leasing the quarries.

(c) S.Nos.519-A and 638-A. The Collector of Bellary has recommended that these two fields may be classified as "village site and golf-links". The present classification of these two fields as 'village site' is sufficient and need not be modified.

(d) S.Nos.522/8, 522/68,522/76,638/D and 638/F. The Board's recommendation that these lands should be registered as "village site" and the words "Basuveswara temple" etc. noted in brackets after "village site" is approved.

(e) S.No.640 (a).-The Revenue Inspector's remarks against this field is that about 200 acres are barely fit for cultivation. The Board is requested to report whether these 200 acres should not be classed as waste. The rest

of the field should be classified as village site poramboke.

(f) S.No.954.- The report called for by the Board from the Collector in paragraph 3 of its Reference quoted above in respect of this field is awaited.

(g) The statement submitted by the Collector includes the sites of the bungalows the assignment of which to their occupants was sanctioned in G.Os.Nos.2116 Revenue, dated 15th October 1929, 2248 Revenue, dated 29th October 1929 and 1027 Revenue, dated 2nd June 1930, and the sites of the bungalows mentioned in the statement submitted with the reference of the Board of Revenue, No.B.3874-29-17 dated the 9th November 1931 the transfer of which to this Government has been sanctioned by the Government of India. These sites and any other sites which are occupied by private bungalows and houses should be excluded from the statement, and only vacant lands should be shown in the statement and classed as waste or poramboke.

(h) S.No.310.- The extent occupied by houses should be excluded from the statement and the portion of the remaining extent which lies within Cantonment limits should be classed as "village site poramboke"

(i) S.No.506-B. The cultivable portion of the field which lies within Cantonment limits should be classed as "assessed waste" and the remaining portion of the field should be classed as village site.

(j) S.No.523/C.3.- The portion of this field occupied by the houses should be excluded from the statement and the portion of the remaining extent which lies within Cantonment limits should be classified as "Nallacheruvu poramboke".

(k) S.Nos.596,597,601 and 701-D. The Board of Revenue is requested to report whether the portions of these fields which lie within Cantonment limits are fit for cultivation and if so whether those portions should not be classed as "waste".

(l) In this Government's letter No.3301-A.D/27-32, dated 29th October 1931 (copy already forwarded to the Board of Revenue) it has been suggested to the Government of India, Army Department, that all the vacant lands in their possession at Bellary should be transferred to this Government. Pending the receipt of the reply of the Government of India to this reference,

reference, portions of fields lying within Cantonment limits need not be separately sub-divided. Rough areas of such portions and their classification as "waste" or "poramboke" may be given in the statement.

2. Subject to the above orders the classification of the remaining lands in Bellary recommended by the Board is approved.

3. The Board of Revenue is requested to revise the statement in the light of the above remarks and submit revised lists of poramboke and waste lands in Bellary as early as possible.

4. The statement submitted by the Board of Revenue with its reference No.71-27-8(Confdl), dated 10th October 1928 in connection with the disposal of military lands and buildings at Bellary shows that S.Nos.633 and 633-A are registered in the accounts as "cantonment village site". These fields have not been included in the statement now submitted by the Board. The Board is requested to state why they have not been included and how they should be classified.

From the Military Estates Officer, Poona, No.S.23-4-M.E.O., date 13th October.1932.

Land - Bellary Cantonment Poramboke and Waste - Classification List - Acceptance.

With reference to your No.3162-D/31-3, dated the 19th July, 1932 addressed to the General Officer, Commanding-in-Chief, Southern Command, I have the honour to state that in the absence of plans showing the Revenue Survey Nos. noted in the list forwarded under your above quoted reference and the actual portions now classfied as Poramboke and Waste lands, this office is not in a position to offer any remarks on the present classification. A plan showing the Civil and Military area in respect of the Old Cantonment of Bellary is, therefore, herewith forwarded with the request that the same may kindly be returned to this office with the R.S.Nos. and their portions now classified as Poramboke and Waste lands duly marked thereon in a distinctive colour to enable this office to take further action in the matter.

Letter to the General Officer Commanding -in-Chief, Southern Command, Poona, No.3162 D/31-3 dated 19th July, 1932.

Land - Bellary Cantonment - Poramboke and waste Classification List - Acceptance.

At a Conference held at the Secretariat, Fort St. George, on 5-11-30 to discuss the respective claims of the Central and Local Governments to certain State lands in the Madras Presidency, it was agreed that in Cantonment areas this Government should have the revenue registers specially examined to see whether any land which is now classified as poramboke ought properly to be classified as assessed waste or un-assessed waste and vice versa and that lists should be drawn up under the instructions of this Government of all poramboke and waste lands in each Cantonment and should be accepted by this Government and the G.O.C.-in-Chief, or, if necessary, the Government of India. A list of poramboke and waste lands in the old Cantonment of Bellary which has been drawn up in accordance with the above agreement, is forwarded for favour of your acceptance.

List of waste and poramboke lands in the old Cantonement of Bellary.

A copy of the letter from the General Officer Commanding-in-Chief, Southern Command, quoted above with its enclosure is forwarded to the Board of Revenue. In paragraph 2 of his Memorandum forwarded with the letter of the General Officer Commanding-in-Chief, the Military Estates Officer, Madras Circle, says that certain Military lands have been classified in the list of poramboke and waste lands as "poramboke". The Collector of Bellary should be asked to verify this statement. In the revised statement of poramboke and waste lands in the Bellary Cantonment submitted by the Board with its Reference No.B.5673/31-4, dated 18th May 1932, S.Nos.310 (part), 636 A, 637 A, 637 C and 637 D are shown as vacant lands, S.Nos.519 A and 520 as being used as golf grounds, S.No.638 A as the Alipuram Jail compound and S.No. 701-B as a path. The Board is requested to report whether the lands mentioned in para. 2 of the Military Estates Officer's Memorandum are Military lands, whether they form part of the revenue survey numbers shown against them and whether they were in the occupation of the Military authorities on 1st April 1921. The areas of the portions which were in ~~xxxx~~ their occupation on that date should also be reported.

p35cf.

pp41+42cf.

pp89-91cf

2. In the statement of poramboke and waste lands submitted by the Board referred to in para. 1 above it is stated that a portion of S.No.340-B measuring 4 cents lies within the limits of the old cantonment of Bellary. This

p38cf

extent

extent was accordingly included in the list of poramboke and waste lands in that Cantonment sent to the General Officer Commanding in Chief./The Military Estates Officer says that it is not within the limits of the old Cantonment. The Board is requested to report whether the statement of the Military Estates Officer is correct.

3. The list of poramboke and waste lands submitted by the Board mentioned in para. 1 above shows that there is an aerodrome in S.No.636-A. This is presumably the large open space within the municipal limits of Bellary used as a landing ground for aeroplanes. The Board is requested to report (i) the area of the land so used and the survey numbers or numbers comprising it,

(ii) whether it is Military land, i.e. whether it was in the unconditional occupation of the Military authorities on 1st April 1921, and

(iii) if it was not, the terms on which its use as a landing ground for aero-planes is permitted.

PARA I OF THE GOVERNMENT MEMORANDUM.

A statement showing the Revenue survey particulars of the lands and buildings referred to in the military Estates Officers letter is enclosed. Particulars of the extents, item by item are not noted as no information is available on the point. Explanatory remarks have however been made in column 9 of the statement.

2. All the items in the Military Estates officer's letter except "Agricultural lands " and "lands kept as vacant for future military use " were in the occupation of the military. The excepted lands also must be regarded as being in the possession of the military authorities under Rule 2 (a) of the Secretary of States Land Rules. The extent occupied by the former category of lands should have been excluded from the statement and the rest classified as 'Waste' and not Poramboke with the exception of a "Rasta" (Item No. 21). The Classification List already sent, proceeded on the footing that all village sites were 'Porambokes' and that such portions of the extents as were cultivable should be transferred to Assessed waste and the rest kept as 'village site'. As the Items now referred to by the Military Estates Officer were mostly undivided portions of these 'village sites', the entire survey numbers were proposed to be retained as 'Village sites' except where cultivable portions were suggested for transfer to

to assessed wastes. I consider, however, that a revision of the list merely for the reclassification of the items referred to by the Military Estates officer would be unnecessary if my proposals in the next para are approved.

3. The classification of all village sites primarily as 'Poramboke ' does not seem to be correct. A'village ~~Site~~ ' as equivalent to 'Grama nattam ' is usually a small area set apart for house sites in a village and is usually a block, most of which is already built upon, with a few vacant plots available for future assignments. The 'village site' in the cantonment area now in question consists of hundreds of acres and contains extensive plots some of which are cultivable and some not. Except such portions as are really Porambokes Viz. Vankas, hills, temples, Kastas, the rest would properly have to be classified only as 'Wastes'. The grouping of the vast extents originally registered as 'village site ' under Poramboke was not therefore proper; consequently the transfer of cultivable portions alone to assessed wastes and the retention of the rest as village site Poramboke was not proper either. The proper procedure seems to be to retain only such portions as Porambokes as served a communal purpose when the cantonment was in existence and class the rest of the vacant land as 'Waste'. It is unnecessary to classify them further as unassessed or assessed wastes for the purpose now in view. The whole list will be revised on these lines if approved.

4) The matter is of practical importance also as it would affect the question of the areas on which the military authorities will have to be taxed by the Municipality. The revision of taxes on lands in the Ex.Cantonment area would then be governed by the classification now proposed to be made.

PARA 2 of the GOVERNMENT MEMORANDUM.

S No. 340 B falls outside cantonment limits and it may therefore be eliminated from the list.

PARA 3 OF THE GOVERNMENT MEMORANDUM.

The ct survey No. in which the aerodrome lies is Survey Number 640 A and not Survey No: 636 A as originally reported.

P.T.O.

REVD REVENUE AND SETTLEMENT
REDY. 1934

REVENUE DEPARTMENT.

Memorandum No.3162-D/31-17, dated 25th October 1934

Subject:- Land - (Bellary) - Bellary Cantonment - Poramboke and waste Classification. From the Board of Revenue, L.R.&S., Ref. No. B.5673/31-14, dated 1st October 1934

In para 3 of his letter Ref.C.No.719/34-A-2, dated 23rd August 1934, submitted by the Board of Revenue with its reference read above, the Collector of Bellary has stated that the grouping under 'poramboke', in the list of poramboke and waste lands sent to the Military authorities, of vast extents within the limits of the old Cantonment of Bellary which were originally registered in the revenue accounts as 'village site', was not proper and that the proper procedure is to retain as porambokes only such portions as served a communal purpose when the Cantonment was in existence and to class the rest of the vacant land as 'waste'. The reason given by him is that a 'village site' is usually a small area most of which is already built upon, with a few vacant plots available for future assignments, while the land classed as 'village site' in the old Cantonment of Bellary consists of hundreds of acres and extensive plots. The Board, apparently agreeing with the Collector, has stated that a reclassification of the lands is called for and has accordingly instructed the Collector to ...se on the lines proposed by him the list of lands classified as 'village site' poramboke. The Government are unable to agree with the definition of 'village site' given by the Collector. The old Cantonment is included within the limits of the Bellary Municipality and the Government are unable to see why a Municipality should not have extensive plots of land fit for building purposes. In the revise[d] statement of poramboke and waste lands submitted by the Collector with

his letter Ref. C.No.6319/32-A.8, dated 6th May 1932 many of the lands classed as village site poramboke were stated to be fit for building purposes. The Government cannot accept the suggestion to start afresh the classification decided upon after years of correspondence. The lands mentioned in the Military Estate Officer's Memorandum No.S/23/13/M.C., dated 11th December 1933, need alone be dealt with in the light of the facts now reported by the Collector.

2(i) The following items are presumably occupied by buildings and lands appurtenant to such buildings:-

ITEM NO.	DESCRIPTION.
1, 5 to 8 and 10 to 13.	M. E. S. Wells.
14 to 16.	Connaught Barracks and their appurtenances.
19, 20 and 24.	M. E. S. Wells.

30.	Forage Yard.
31 to 33	. E. S. Wells.
35 to 43	ritish Military Hospital buildings and part of Connaught Barracks and their appurtenances.

The Collector should ascertain and report in each case the approximate extent covered by the buildings and appurtenant land. Such extents should not have been included in the list of poramboke and waste lands and should now be excluded.

(ii) Items 28 to 30. The Collector should also ascertain and report what the extent covered by the buildings sold by the Garrison Engineer, Bangalore, is and when the sale took place.

(iii) Items 35 to 43. In respect of each of these items the Collector should also ascertain and report the approximate area with particulars as to whether or not it is occupied by buildings and how the remaining extent of S.No.638-A should be classed. A plan of the field showing the portion occupied by the building should also be submitted.

(iv) Items 3, 4, 9, 17, 18, 22, 23, 25 and 34 should be excluded from the list of porambokes and classed as waste. The Collector should ascertain and report the approximate extent of each of these items falling within the area classed as poramboke in the S.No. concerned.

3. The further report referred to in paragraph 3 of the Board's reference read above is awaited.

4. The Collector's present report has brought to light several mistakes in the Collector's previous reports and proposals for the classification of the lands. Lands which were previously reported to be vacant are now stated to contain buildings. Lands which were recommended by the Collector for classification as 'poramboke' are now reported to have been in the occupation of the military authorities on 1st April 1921. The following are some of the instances:-

638-A	Alipuram Jail Compound.	Vacant except the portion occupied by Golf links.	British Military Hospital buildings and part of Connaught Barracks and their appurtenances are in this field.

The Government consider it deplorable that after years of correspondence fresh mistakes should be coming to light like this. The District authorities seem to have performed this duty in a careless manner. The Government must insist that the Collector should give his personal attention to the matter, and should take severe departmental action against the subordinates responsible for the blunders.

Ref.C. No. 719/34-1, dated 18th April 19 35

Sir,

* Land Bellary - Bellary Cantonment - Poramboke and waste - Classification.
Ref. Board's No. B. 5673-31-16 dated 5.11.34.

ENCLOSURES 4 (four)

SPARE COPIES

Para 2 of the Government Memorandum in the Board's reference.

Statements A and B showing the extents of the several buildings together with their appurtenances and of the agricultural lands in the Bellary Ex-Cantonment are enclosed. These extents have to be excluded from those reported in the list of porambokes and waste lands already submitted.

2. The extent covered by items 28 to 30 as per statement A is 1.66 Acres. In the case of these buildings materials only were sold and the sites after demolition treated as ordinary village sites. Items 28 and 29 together with certain other buildings were sold by the Garrison Engineer, Bangalore on 19.3.34 and sale was approved in G.E.S. No. 2026/421/E.2 B dated 19.3.34 (copy enclosed). Item 2 in the sale list represents items 28 and 29 referred to above. Item No.30 was sold on 20.10.32 and the sale was approved in G.E.S. Bangalore No. 2026/243 E.2 dated 2.11.32 (Copy enclosed.)

3. A plan of the field showing items 35 to 43 is enclosed. The approximate extents covered by the buildings are noted against each item in the A statement. Besides these buildings the Allipuram Jail is also located

in this field and several roads traverse the remaining extent of the land. Consequently no extensive and compact block of land is available for any other specific purposes. The full field may therefore be classed as village site Poramboke.

omit in copy to the Govt. p1100f-

Para 3 of the Board's Ref. No. B. 5673/31-14 dated 1.10.34 has not been communicated, to this Office.

The total extent of the aerial ground together with the land 200 yards broad around comes to 189-01 acres. Survey particulars for this extent are noted below:-

S.No.	Extent.	Present classification.
665 B/1	14.00	Village site Poramboke.
B/4	1.81	Patta land of Jayaram Naidu
666	0.08	do Boya Sunkappa.

The points raised by the Board are answered below:-

(1) Para 1 (i) of the Reference:- Of items 35 to 43 referred to in para 2 (iii) of the Government Memorandum No. 3162/D/31.17 dated 25.10.34 there are buildings in all except the following cases. Item No. 35 - Hospital sanitary Cordon

Item No. 39. Parade Ground.

" 40 Part of Connaught Barracks.

" 41 Barrack Master's Stores

" 43 A-1 land holding.

2. Para 1(ii) and 2(iii) of the reference:- The total extent of the aerial grounds together with the land and road around comes to 189-04 acres as noted below.

S.No.	Extent	Present classification.
665 B1	14.10.	Village site Poramboke.
665 B4	A-81	Patta land of Jagarum Naidu
666	0.08	Patta land of Boya Lunkappa

640 B	3.04	Village site Poramboke.
640 A	1.40	Railway Permanent.
640 A	168.60	Village site Poramboke.

The total area furnished in my previous report is correct but by mistake 14 acres were shown again t S.No. 665 B-1 instead of 14.10. acres. S.No. 640 A consists of railway land and village site poramboke. The extent of each is separately given now. Of the fields shown above, the following were in unconditional occupation of the Government of

3. Para 2 (i) of the reference:- Items 4, 17, 18, 23 and 25 are not at present fit for cultivation. They may be classed as "Unassessed Wastes".

4. Para 2(ii) of the reference:- Item No. 27 is wholly situated in S.No. 522/71 as already reported. In the adjoining S.No. 522/70 measuring 0.02 acres there is the debris of a small building which was perhaps attached to the magazine. This demolished building appears to have been treated as part of the magazine by the Military Estates Officer. There is no building now in S.No. 522/70 (0.02).

5. Para 3 of the reference:- A comparative table is appended.

6. Para 5 of the reference:- Two copies of the plan are submitted. Revision of the plan is not necessary as there are no buildings in items 35 and 43. A note has been added in the plans showing the items in which there are no buildings at present.

The Board submits the following report on the several points mentioned in the Memo. from the Govt. read above:

p 117-120 of.

p 13 of

p 125 of (Sch A)

2. Para 2(i) of the Memo.

A statement showing the extent covered by each item is enclosed. The total extent may be excluded from the extent of porambokes in the list appended to the local Govt's letter No 3162 D/31 of 19.7.1932. It appears that items 39 (Parade ground) and 43 (A.2 land holding - land reserved for future military use) are ~~neither~~ neither occupied by buildings nor

p 69 of

para 2, p 9 of

are appurtenant to buildings and will therefore have to be included under "unassessed waste".

3. Para 2(ii) of the Memo. — p 118 cf

The extent covered by items 28 to 30 is 1·66 acres according to the statement referred to in para 2 above — p 125 cf.

In the case of these buildings only the materials are reported to have been sold and the sites, after the demolition of the buildings, treated as ordinary village sites. — vide para 2, p 123 cf.

Items 28 and 29 are included in item 2 of the sale list appended to the lett of the Garrison Engineer, Bangal No. 2026/421/E.2 B. dt 19.3.34 (copy enclosed) and item 30 was sold on 20-10-32 and the sale was confirmed by the Garrison Engineer in his letter No. 2026/243/E.2. dt 2.11.32 (copy enclosed). — pp 127-128 cf — p 124 cf

4. Para 2(iii) of the Memo. — p 119 cf

A plan of the field, S.No. 638A, showing the portion occupied by buildings is enclosed. The extent of each item is specified in the statement referred to in para 2 above. The Collector reports that there are no buildings — (C) — p 125 cf

now in items 35, 39, 40, 41 and 43. and that there are buildings in the other items.

para 1, p135 cf

The extent of S.No 638-A, village site now classed as poramboke is 232.56 a

item 73 – p 72 cf.

Items 35 to 43, in this S.No, whic

are military property, occupy 95.04

The Collr. reports that part of the remain

para 3, pp 123-124 cf

extent is occupied by the Alipuram Jail, that several roads traverse the remaining extent. The Board consider

232.56

137.52 X

that the extent (137.52 ac) belo to the local Govt may be classed as Alipuram Jail, Road and Village site " poramboke, so that the

existence of the roads may be brought on record and any possible future claim by the military authorities to the roads as military roads may be guarded against. If deemed fit, the Alipuram Jail which occupies a large compact area may be

separately registered after subdivision, when the subdivision and separate registry of porambokes and wastes is eventually ordered.

p 119 cf.

5. Para 2 (iv) of the Memo.

The extent of each item is

noted in the Statement B. appended. Items 3, 9 and 34 may be classified as "assessed waste" and the other items as unassessed waste" and included in Lists I and II respectively, enclosed to the local Govt's letter No. 3162 D/31-3 dt 19-7-32 and excluded from the list of poramboke. p125 cf. pp70-71 cf. pp70-71 cf.

6. Para 3 of the Memo. p119 cf.

The total extent of the aerial round together with the land 200 yards broad around it is 189.01 acres as noted below:— p 135 cf

S.No.	Extent	Present classification.
665-B1	14.10	village site poramboke.
665-B1	1.81	Holding of Jayaram Naidu.
666	0.08	Holding of Boya Lunkappa
667	0.01	Railway permanent.
640 B	3.01	Village site poramboke.
640 A	1.40 (approximate). p124 cf.	Railway permanent ~~(approximate)~~.
~~640~~	168.60	village site poramboke.

The aerial ground proper, in S.No. 640-A, measures only 58 acres. p124 cf.

The Collector reports that the extents shown above as village site poramboke ~~were~~ were in the unconditional occupation of the Govt. pp 135-136 cf.

of India on 1-4-192[illegible], that of them, S.No 665-B-1 is outside the limits of the Cantonment and that S.Nos 640 B and 640 A were previously classified as village site poramboke as definite information regarding the extent of the Royal Air Force Landing ground and the land 200 yards broad around it was not then available. He also reports that the extent of 1·40 acres in S.No 640 A. occupied by the Railway ~~was~~ has been included in the extents of 420·40 ~~acs classified "poramboke" and~~ now classified as poramboke in List III appended to the local Govt's letter dy 19-7-32.

p 141 cf

p 137 cf.

p 72 cf.

In view of the facts now reported by the Collr, the Board considers that the extents of 1·40 acres and 168·60 acres in S.No 640-A and of 3·01 ac. in S.No 640 B may be excluded from the list of porambokes and that the extents of 168·60 acres in S.No 640-A and of 3·01 ac. in S.No 640 may be classified as "unassessed waste" and included in List II

From

H. R. Uzielli, Esq., C.I.E., I.C.S.,

Secretary to the Government of Madras,

To

The General Officer Commanding-in-Chief,

Southern Command, P o o n a.

Dated Fort St. George, the 20th August 1935.

Sir,

Subject:- Land - (Bellary) - Bellary Cantonment - Poramboke and waste classification - List - Acceptance - Your letter No.32392/23/R.L.C., dated 3rd January 1934.

pp 89 cf

In reply to your letter quoted above, I am directed to state that the items mentioned in paragraph 2 of the Memorandum of the Military Estates Officer, Madras, forwarded with it, consist of (a) lands occupied by buildings and (b) vacant lands. Items fallin under (a) do not come within the scope of the present classificatior of lands as 'waste' or 'poramboke'. A list of such lands is enclos (Annexure II). They will be excluded from the list.

pp 89-91 cf

pp 163-165 cf

2. Of the items falling under (b), the following lands may be classed as waste, i.e., as being under the control of the Government of India, for the reasons given below:-

Item No. in the list given in paragraph 2 of the M.E.O's Memo.	S.No.	Extent.	Reasons.
3, 4, 9	597(part)	864.08	Agricultural land and part of Rifle range leased out for agricultural purposes.

Memorandum No. 3162 D/31-23 dated 25th January 1936.

Land - (Bellary) - Bellary Cantonment - Poramboke and waste - classification list - Acceptance - letter from the Inspecting officer, Military Lands and Cantonments, SouthernCommand, No.735/8/M.L.C. dated 4-1-1936.

A copy of the letter from the Inspecting Officer, Military Lands and Cantonments, Southern Command, quoted above is communicated to the Board of Revenue. The Board is requested to instruct the Collector of Bellary to have the portions of the fields which have been classed as "waste" or "Poramboke" subdivided and the necessary changes made in the Revenue accounts in accordance with the classification accepted by the General Officer Commanding-in-Chief, Southern Command.

2. S.No. 597. The total area of this field is 614-69 acres, of which an extent of 608.40 acres lies within the Old Cantonment limits. In the list of poramboke and waste lands submitted by the Board with its Reference No. B.5673/31-4 dated 18-5-1932, it was stated that a portion of S.No. 597 was fit for cultivation, and that that portion might be classed as assessed waste. An extent of 300 acres in the field was accordingly classed as waste--see the list of poramboke and waste lands originally sent to the General Officer Commanding-in-Chief with this Government's letter No.3162 D/31-3 dated 19th July 1932 (Copy sent to the Board with Government Memorandum No.3162 D/31-6 dated 18-10-1932). The Government of India sanctioned the transfer of this extent to this Government--see their letter No.1062 L (AD4) dated 2-9-1933(copy sent to the Board of Revenue with Government Memorandum No.421 D/33-8 dated 2-10-1933.). Subsequantly in their letter No.83-L/AD4 dated 18-1-1934, the Government of India sanctioned the transfer to this Government of a further extent of 421.21 acres in the same field. When the fact that an extent of 300 acres in this field had already been tranferred to this Government was pointed out to the Government of India, they substituted another letter bearing the same number and date (copy communicated to the Board with Government Endorsement No.421 D/33-21 dated 28-9-1934) in which they terminated the arrangement by which the Jail Department of this Government was allowed the use of about 421.17 acres of land

in Bellary

in Bellary thus in effect cancelling the transfer of 421.17 acres in S.No.597 to this Government, and retaining that extent under their control. The transfer of 300 acres to this Government originally ordered was not cancelled. If this extent is under the control of the Local Government as poramboke, the balance that is available for classification as "waste" (i.e. as being under the control of the Government of India) is only 308.40 acres. It is therefore not clear how an extent of 421.17 acres in the land can be under the control of the Government of India. In his letter No. S/23/13/Mc dated 11-12-1933 (forwarded to the Board with the Government Memorandum No. 3162 D/31-14 dated 23-1-1934) the Military Estates Officer Madras Circle, stated that the following extents in S.No.597 were military lands:-

	Extent. acres.
Part of agricultural land leased to the Atipuram Jail,	421.17
Part of Old Rifle Range	35.00
M.E.S. Wells Nos. 14, 17, 18 and 19.	00.04
Part of the Rifle range leased out for agricultural purposes,	107.91
Total	564.12

It is still more difficult to reconcile this extent with the total area of the land, if an extent of 300 acres of it belongs to this Government by virtue of the transfer referred to above. In its reference No.B.5673/31-19 dated 12-8-1935 the Board recommended that excluding the sites of the four M.E.S.wells an extent of 564.08 acres might be classed as "waste". This was done.--See the revised list of poramboke and waste lands sent to the General Officer Commanding-in-Chief with this Government's letter No.3162 D/31-18 dated 20-8-1935. (a copy of which has been sent to the Board). The Inspecting Officer, Military Lands and Cantonments, Southern Command, assumes that the transfer of 300 acres to this Government still holds good and states that this extent has been wrongly included under the classification "waste" a instead of under "poramboke". The Board is requested as (1) to clarify the position by means of a sketch of the land showing the location respectively of (1) the 300 acres transferred to this Governme

(II) the agricultural land leased to the Alipuram jail which was resumed by the Government of India; (III) part of the rifle range (35 acres) and part of the rifle range leased out for agricultural purposes (107.91 acres) referred to above; and (IV) the M.E.S. wells; and (ii) to report whether the extent of 300 acres tranfferred to this Government is included partly or wholly within the area of 564.08 acres in the field which has been classed as "waste", and if it is only partly included in that area how much of it lies within that area and how much lies outsid of it; and how the remaining extent in S.No.597 (after excluding the 300 acres in question) should be classified in the list of poramboke and waste lands.

3. The Board is requested to have the details required by the Inspecting Officer in para 2 of his letter quoted above marked in the tracing (two parts) and to return the tracing to the Government as early as possible.

From the Inspecting Officer, Military Lands and Cantonments, Southern Command, Poona, No.~~655~~ 735/8//M.L.C. dated 4th January 1936.

Land (Bellary) - Bellary Cantonment - Poramboke and waste - Classification - List - Acceptance.

I have the honour to refer to the correspondence ending with yourletter No.3162-D/31-20 dated the 25th November 1935, on the above subject, and to state that the General Officer Commanding-in-Chief accept the classification of waste and poramboke lands in Bellary Cantonment as per the revised list forwarded with your letter No.3162-D/31-18 dated

dated the 20th August 1935 subject to the following remarks:--

In the list referred to above S.No.597 has been classified as under:--

597 part.....564.08 acres.....waste
597 part.....44.28 acres..... ...village site proramboke.

The total area of S.No.597, excluding the area of 0.04 acres occupied by four wells, comes to 608.36 acres. It is, therefore, presumed that the 300 acres of waste lands from this survey number tranferred to the Madras Government under Army Department letter No.1062-L(A.D.4) dated 2-9-1933 has now been wrongly included under the classification of waste instead of poramboke. It is requested that the necessary correction in the revised list may be made in respect of this survey number.

2. The tracing, in two parts, of the Bellary Cantonment received under your letter No.3162 D.51-15 dated 4-11-1935 is forwarded herewith with the request that all waste lands now shown in the revised list be marked thereon indistictive colours.

Refce. Order / Ms. / Resolution / Rout. No. B 5673/31-24, dated 7-7-1936.

The Board considers that the Coll^r's proposal to classify the entire extent of 564.08 acres (comprising plots A, B, C, D in the sketch of S. No. 597 received with the Coll^r's letter read above) as assessed waste cannot be accepted. Plot A measuring 300 acres which has been transfered to the local Govt should be classified as 'village-site' poramboke, since the whole of the survey field was reported to have been classified as such in the village accounts previously. Plots B, C & D which belong to the Govt. of India

1834.

should alone be classified as 'waste'.

2. The details required to be marked on the tracing received from the Inspecting Officer, Military Lands and Cantonments, have not been properly indicated. From the references to the colouring given in the tracing, it is observed that the boundaries of 'waste' lands were intended by the Coll's office to be indicated by deep pink lines. This has not been done completely in respect of the boundaries of portions of some of the survey fields which have been classed as 'waste'. The boundaries of the portions of S. No. 633-A have been coloured on the reverse of the tracing and not on the face of it. S. Nos 637-C and D have been coloured in light pink inside their boundaries which have been indicated by deep pink lines.

As regards S. No. 597, the Coll has not indicated on the tracing the extent classified as 'waste', for the reason that two sketches of the

para 2, p 183 cf.

field have been furnished by h separately. The latter are intended for the use of the Board and of the Govt. The extents classed as waste in this S.No. (viz plots B, C & D referred to in para 1 above should therefore be indicated on the tracing which is to be returned to the Inspecting Officer, Military Lands and Cantonments.

p 37 cf.

For the sake of uniformity the Board considers that the ~~two~~ extents classified as 'waste' may be indicated by light pink colouring ~~within~~ ~~thereto~~ and their boundaries by deep pink lines. The Collr. is requested to have them so indicated on the tracing which is herewith returned.

p 120 cf.

3. The attention of the Collr. is invited to the remarks made by the Govt. in para 4 of their Memo. No. 3162-D/31-17 of 25-10-34 that the matter had not been receiving proper attention from the district authorities and that the Collr. should

give his personal attention to it. He. Collr. is requested to bear the remarks of the Govt in mind when submitting ~~his~~ this reply to the present Reference, and to return the tracing at an early date, as the Govt are pressing the Board for its reply to their Memo. The revised tracing (enclosed for reference and return), received with the Coll's letter read above, calls for the following remarks:—

(i) The extent in S.No. 59 indicated as 'waste' does not correspond to the plots B, C and D shown in the plan of that same field received with the Collr's letter Ref. C No. 4059/35 A2 dt 21-5-36.

(ii) The Inspecting Officer, Mils Lands and Cantonments, desired that the waste lands specified in the list appended to the local Govt's letter 3162 D/31-18 dt 20-8-35 might be indicated in distinctive colours on the

tracing sent by him. The boundaries of lands which were originally classed as such and those which were transferred to the Local Govt by the Govt of India need not have been indicated in separate colours.

The Collr is requested to submit, at a very early date, revised tracing indicating the waste lands correctly on it; and a revised plan of S.N. 3/1 if the plan originally sent by him is found to be incorrect.

2. The original tracing in two parts received from the Inspecl Officer should be returned at an early date.

Particulars of the classific ation of land in S.No. 597 ar furnished below.

	Ac	Cc
Total extent of S.No. 597	614	.69
Extent beyond Cantonment limits	6.29	
Remainder	608.40	

The difference in the extent indicated as waste in S.No. 597 is due to the fact that on ground there are no ridges or other distinguishing marks to show the position of the land and wells classified under heads I to IV and referred to in Government Memo Revenue Department No. 3162 D/31-23 dated 25-1-36 communicated with the Board's reference date 5-2-36. The matter of subdividing the land according to the classification accepted by the General Officer Commanding-in-chief, Southern Command is under correspondence between the Inspecting Tahsildar and the Tahsildar Bellary. It may take about two months to complete the work. The subdivision lines shown in the tracing of S.No. 597 indicate only lines drawn arbitrarily to classify the position of land referred to by Government.

2. Duplicate sketches of S.No. 597 showing the position of lands referred to by the Board in para 2(b) of its

reference read above have been prepared and the combined sketch has been revised so as to correspond to the plots indicated as B.C.D. in the tracing of that field.

3. The extent of 300 acres in S.No. 597 of Bellary transferred to the Local Government is included wholly within the area of 564.08 acres in the field classed as 'Waste'

4. The remaining extent of 308.40 acres of land after excluding 300 acres transferred to the Local Government and classed as Poramb (Portion marked A in the tracing of S.No. 597) may be classified in the list of Poramboke and waste lands as shown below:-

The total extent of S.No 597 of Bellary is 614.69 acres, of which 6.29 acres is outside the limits of the old Cantonment of Bellary. The four M.E.S. The Board considers that of the remaining extent of 608.36 ac, plot A measuring 300.00 acres being the land transferred to the local Govt and plot E measuring 44.28 ac. already classed as 'village site' poramboke should be classified as village-site' poramboke, since the whole of S.No. 597 was previously reported to have been registered as village

To

The General Officer Commanding in Chief,
Southern Command, Poona.

Dated Fort St. George, the 28th January 1937.

Sir,

Subject:- Land - (Bellary) - Bellary Cantonment - Poramboke and waste - Classification - Your letter No.735/8/ LLC.,Cantonment lands, dated 4th January 1936.

H. 17, 175 f

I am directed to state that necessary instructions have been issued that the portions of the fields which have been classed as "waste" or "poramboke" should be sub-divided and that the necessary changes should be made in the Revenue accounts in accordance with the classification accepted by you.

2. With regard to S. No.597~~x~~, I am to state that out of the total area of this field (614.69 acres) an extent of 6.29 acres is outside the limits of the old cantonment of Bellary while the four M.E.S. wells occupy a total extent of 4 cents, which do not come within the scope of the present classification of the lands as "waste" and "poramboke". Of the remaining 608.36 ~~608136~~ acres the extent of 300 acres which was transferred to this Government under the Government of India (Army Department)'s letter No.1062-L(AD.4), dated 2nd September 1933, should, as pointed out in your letter quoted above, be registered as 'village site' poramboke in addition to the extent of 44.28 acres which has already been so classified (see item 36 of annexure I to my letter No.3162-D/31-18, dated 20th August 1935, and

the remaining extent of 264.08 acres which belong to the Government of India should be classified as "waste". I am accordingly to request that in annexure I to my letter No.3162-D/31-18, dated 20th August 1935 in the column "extent" against items 3 and 36, the figures 264.08 and 344.28 may be substituted for 564.08 and 44.28 respectively. pp 153-161 ✓

3. With reference to paragraph 2 of your letter quoted above I am to state that the tracing (in two parts) received with that letter has been spoilt during the process of marking on it the "waste" and "poramboke" lands. A revised tracing (in two parts) is enclosed showing, in respect of S.No.597, only the extent of 264.08 acres to be classified as "waste" (see para 1 above) and in respect of the other S.Nos. mentioned in list 1 of annexure I to my letter No.3162-D/31-18, dated 20th August 1935, the extents specified in that list against each of them. The tracing received with your letter dated 4th January 1936 is also returned herewith. p 155 ✓ pp 173-175 ✓

Extract of the notes at pp15-16 of file B.5922/31.

3. The Collr. of Bellary has submitted a statement showing the parcels of land and buildings which are considered useless in the old cantonment of Bellary.

S.no.65 2. Out of 50 cents alone are fit for cultivation. The rest or a portion of it is a nala-stream. The 81 acres portion should be excluded and regularised [illegible]

S.no.635 F. Military Pasture ground: Strictly speaking this should be classified as military bungalows hereafter. The Collr. may be asked to report when this was regularised as military bungalow whether the adjacent buildings in the same S.no. are classed village sites and if so with what authority the ownership of the bungalows has been settled in favour of the Military to classify them as military bungalows.

S.no 635 F. The words 'cantonment' & Cantonment Police Station appear to be unnecessary as Bellary is not now a cantt.

S.no. 640 A. About 2 acres out of 620.40 are said to be fit for cultivation after the proposed classification as village site. [illegible] the classification.

Dear McEwen

Land - Bellary Cantonment - Poramboke and waste - classification - Your d.o. No.1 dated 16.2.33 reminder on Board's Ref.B.5673/31-9 dated 24.10.32.

The Government of India survey plan of the Cantonment and the Revenue survey plan of Bellary village showed different alignments of the boundary of the Cantonment due to it not being surveyed for entry in the Revenue survey plan but shown there as a detail. A tracing from the cantonment plan was taken for placing over the revenue survey plan and marking in it the proposed chages in classification. These include changes in parts of revenue survey fields. So for two reasons the matter has presented some difficulty. Jamabandi has been going on in Bellary Taluk this month and there has been much crop inspection due to the numerous petitions for suspension of Land Revenue which usually come from -

It will be seen that all the items mentioned in paragraph 2 of the Military Estates officer's letter are military lands and bear the classification village site Perambore. The Collector points out

that agricultural lands should have been excluded from the statement and the rest classified as waste" and not as foramboke with the exception of a Tank (Item no 21). It is not correct to exclude agricultural land from the scope of the enquiry. They should be included in the statement and shown as "wastes". In fact these agricultural lands S Nos 597 (part) and 640 A (part) were shown as assessed wastes in the statement previously submitted by the Collector with reference to the suggestions of the Govt in their memorandum abpp 29-31 C.F. The Collector's attention may be invited to this fact.

Bellary Collector's Office,
Dated 10th April 1935.

My dear Westlake,

Land - Bellary - Bellary Cantonment - Poramboke and waste - reclassification.

Ref: Your D.Os dated 20.3.35 and 8.4.35.

The Tahsildar, Bellary sent an incomplete report on 7.3.35 and he has again been asked to furnish further particulars. On receipt of your D.O. dated 20.3.35 the Tahsildar was reminded to expedite his report. His further report is still awaited. I shall send my reply by about the 20th of this month.

The delay in replying to your D.O. is regretted.

Yours sincerely,

B2267/35 - from the Coll. of Bellary.

To Asst Secy.

Please the Govt. Memo. of 25-10-34, the Board's Repre. thereon of 5-11-34 and the Coll's reply. The several points refd to in the Govt Memo. are dealt with below:

1.(i) Para 2(i) of the Govt Memo. The extents covered by the buildings and lands appurtenant to buildings have been reported by the Coll - vide Statt. A. These extents have to be excluded from the extents of the poramboke shown in the list at pp 71-73 c/f.

(ii) Para 2(ii) of the Govt. Memo.

The information reqd by the Govt. is contained in para 2 of the Coll's report.

(iii) Para 2(iii) of the Govt Memo. The areas of these items have been specified in Statt. A. submitted by the Coll. He has also submitted the plan called for by the Govt. He has not however reported whether each of the extents in question is occupied by buildings. The plan shows that there are no buildings in the areas covered by the following items:

Item 35 - Hospital Sanitary cordon. (This is shown as Sanitary Area in the plan).

Item 43 - Land reserved for future military use. The Coll may be asked to report definitely on

on this point viz whether there are buildings on the area covered by each of the items. | 45.35 Ow q.5

(iv) Para 2(iv) of the Govt memo — p 119 cf

The Coll. has shown all the items referred to by the Govt as agricultural lands in the Statt B. enclosed by him and has stated that their extents have to be excluded from the list of poramboke and waste lands in the excantt. area. The Coll's statement is incorrect as the lands have only to be excluded from the list of poramboke but have to be included in the list of wastes. // As to Refce to the Govt. of 1.10.34, the Board has expressed the view that wastes should be classified into "assessed" and "unassessed" and that agricultural land should be shown as "assessed waste". The Coll. was also informed of the Bd's view in para 4 of that Refce. The Coll's inclusion of all the items under "agricultural land" does not seem to be correct in the case of the following items:

p 125 cf.

para 1, p 123 cf

vide Govt memo, p 119 cf

p 109 cf.

do not see the pertinence now.

All we intend to know are which are wastes and which is poramboke. Collr may be asked to report on the above points now and ask to report in due course on the Collr's remarks in cof 9 p 107 of list of "assessed" lands.

vide also Ow, at p 103 cf.

Item 4 — Part of old rifle range — does not seem to be fit for cultivation purposes —

17. — Land reserved for future military use and not to be built upon.

23. Sanitary Cordon

25. Part of A.F.I. Rifle range ——— Do. ———

vide p 105 cf.

The Coll. may be asked to report why these above items have been included under "agricultural lands"

45.35 — w 10.5.

and whether they should not be classed as "unassessed waste".

3. Para 3 of the Govt Memo.

This relates to the land 250 yds broad around the R.A.F. landing ground. The Coll's report on this is contained in para 4 of his letter. The extents of the several S.Nos mentioned in the ~~letter~~ para do not work up to the total specified. viz Acs 189-01-31 is ~~in Cauli~~ less. Apparently there is some mistake. The Coll may be asked to furnish correct particulars.

The Coll. has not reported whether the lands in question were in the unconditional occupation of the Govt. of India on 1-4-21, as desired by the Govt. He may be asked to ~~state~~ furnish this information and to report what extents, if any, of the S.Nos concerned have been included in the list ~~of lands in dispute~~ sent by the G.O.C. in Chief with the Local Govt letter of 19-7-32 & under what class. i.e. "assessed waste", "unassessed waste" or "forest".

4.(i) Item 13. Statement A. This is shown as being in S.No 639. This is apparently a mistake for S.No 639A.

(ii) Item 27 - Statement A. This is shown as being in S.No 522/71. The M.E.O's letter states that this lies in S.Nos 522/70 and 522/71. The Coll may be asked to state whether the Magazine lies wholly in S.No 522/71.

In spite of the remarks of the Govt in the concluding portion of para 4 of their Memo. of 25-10-34, the Collr's present report discloses several errors & defects as noted above. for orders whether any comment may be made.

To Asst Secy.

The correspondence relates to the classification to be adopted in respect of the items of military properties refd. to in the list furnished by the Military Estates Officer, now classed as "Uparambokke" in the list

pp 89-91 c f.

prepared by the Local Govt. On receipt of the Collis report of 23-8-34, the Govt have called for further information - vide their Memo. of 25-10-34. The several points raised in that Memo. are dealt with below.

2. Para 2(i) of the Govt Memo. — lands occupied by buildings and lands appurtenant to buildings.

Such items have to be excluded from the list of 'paramboke and waste' lands. The extent of each item mentioned in this subpara of the Govt Memo is given in the list at p 125 c.f. Items 39 (Parade ground) and 43 (A-2 land holding — land reserved for future military use) do not appear either to be occupied by buildings or to be land appurtenant to buildings. If this view is accepted, they will fall within the scope of the present classification proposals and may be included under "unassessed waste" ~~unassessed occupied~~.

½ 1873/35

3. Para 2(ii) of the Govt Memo — Buildings sold by the Garrison Engineer.

The Collis report is contained in para 2 of his letter of 18.4.35, to be read with the enclosure at pp 127 – 129 c.F.

4. Para 2(iii) of the Govt Memo — Items 35 to 43. A plan showing these items is at (C).

(a) Areas: are given at p 125 c.f.

(b) Buildings: There are no buildings now in items 35, 39, 40, 41 and 43. There are buildings in other items.

(c). The extent of S.No 638 A. at present classed as "Village site poramboke" is 232.56 ac. Items 35 to 43, comprised in this S.No. and which are military property, occupy 95.04 ac. The Govt enquire how the remaining extent of ac. 137.52 (belonging to the local Govt) should be classified. The Coll. reports that part of this extent is occupied by the Alipuram Jail, that several roads traverse the remaining extent and that the full field may therefore be classified as village site poramboke. It is not clear to what area the Coll. refers to as "the full field". It is submitted that the area (137.52 ac) belonging to the local Govt may appropriately be classed as "Alipuram Jail, road and village site" poramboke, so that the existence of the roads may be brought on record and any possible future claim by the military authorities to the roads as military roads (— these lie between military buildings —) may be ~~protected~~ guarded against. The Jail occupies a large compact area. It may perhaps be suggested to the Govt that it may be subdivided and separately registered, if deemed fit, when the subdivision and separate registry of the poramboke and wastes is eventually ordered.

5. Para 2 (iv) of the Govt. Memo. — Waste lands.

The extent of each of these lands is given

i Statt. B. It has since been ascertained that the Coll's original classification of ~~the~~ items 4, 11, 18, 22, 23 and 25 in Tab Statt under "agricultural land" (i.e Assessed Waste" is incorrect. These items should be classified as "unassessed waste" and the others (items 3, 9 and 34) as "assessed waste" and included in the lists II and I respectively at pp 70-71 C.F & p. - - of the Govt Memo. - Land 200 yds. broad: around the R.A.F. landing ground.

The information called for by the Govt in their Memo. at p 107 C.F. is contained in para 2 of the Coll's letter of 30-5-35. The Coll. states that all the three S.Nos now classified as Village Site Poramboke were in the unconditional occupation of the ~~Govt~~ Govt of India in 1- + 1921. If so, they should have been shown in the list of military lands (i.e Assessed & unassessed wastes). It is observed that S.No 665-B1. (14·10 ae) was not included even under "porambokes" (belonging to the local Govt). The portions of the landing ground and the margin around it, lying in S.No 640-B (3·01 ae) and S.No 640-A (~~the~~ 168·60 ae.) were originally included under "porambokes" and ~~those~~ the extent of 1·40 ae. now classified as permanent railway land

* Cantt. limits 1414).

was originally included the extent of 420-40 acres of the village site poram (S.No 640-A part). of the Collr's statt. that the lands in question were in the occupatin of the ~~Govt of India~~ G.I. on 1-4-21 is true, the extent of 14:10 ac. comprising S.No 665-B1 and the extents of 3.01 ac. in S.No 640.B and of 168.60 ac. in S.No 640.A will now have to be classified as "unassessed waste". The extents of 3.01 ac. in S.No 640.B and of 168.60 ac. (refd to above) and 1.40 ac. (railway permanent lands) in S.No 640-A will have to be excluded from the extents of these S.Nos in the list of poramboke lees, belonging to the local Govt. It is also ~~definitely to be considered~~ probable that some portion of the vast extent of 168.60 ac. in S.No. 640-A might have been already included in the extent of 200 acres in the same S.No ~~vide~~ covered by the landing ground referred to in the previous correspondence. the Collr may be asked to report definitely on the point of doubt mentioned above and to explain the omission to include the lands said to have been in the occupation of the ~~Govt of India~~ G.I. in the list of assessed & unassessed wastes submitted by him previously. On receipt of his reply, a complete report may be sent to the Govt.

2. The sketch sent by the Collr shows the particulars required by the Govt. in item (i) of para 2 of their Memo. As regards item (ii) of para 2 of the Govt Memo, the Collr states that the extent of 300 acres transferred by the Govt of India to the Local Govt. is included in the extent leased to the Alipuram Zamd resumed by the Govt. of India. This extent was included under 'waste' (i.e. as belonging to the Govt of India) in the list at p 155 c.f. The Inspecting Officer, Military Lands & Cantts, South Command has stated that the transfer made by the Govt. of India to the Local [illegible] The extent of 300 acres should therefore be classified as land belonging to the Local Govt. The whole of

S.No. 597 was originally classified as village site. Hence the extent of 300 acres in question will have to be classified as village site poramboke. If this classification is approved, S.No. 597 will be classified as shown below. p45cf

In para 2 of his letter to the Local Govt, the Inspecting Officer, Military Lands and Cantts, requested p110cf

that the lands classified as 'Waste' by the local Govt, might be indicated in distinctive colours in the tracing sent by him. The Collr. has returned the tracing stating that the details required by the Inspecting Officer have been marked on it except in regard to S.No. 597. From the tracing it is seen that the boundaries of the waste lands were intended by the Collr's office to be indicated by deep pink lines. This has not been done completely in respect of the boundaries of portions of some of the S.Nos. The boundaries of the portions of S.No. 633-A. have been coloured on the reverse of the tracing sheet & not on the tracing itself. S.No. 637-C & D have been coloured in light pink, inside their boundaries, marked in deep pink colouring. The portions of the other S.Nos accepted as belonging to the Govt of India & classified as 'Waste' may also be indicated similarly (viz the boundary in deep pink and the extents in light pink) to secure uniformity and clearness.

As regards S.No. 597, the Collr has not indicated on the tracing the extent classified as waste, for the reason that he has furnished two sketches of the field separately. These sketches are intended for the Board & the Local Govt, while the tracing is to be sent to the Inspg. Officer. The Collr. may therefore be

ked to indicate the portions (Plots B, C, and D refd. to in para 2 of this note ~~above~~) ₹36 nfs.
S.No. 597 also in the tracing at ⊗.
The Collr. may be asked to rectify the omissions in the tracing pointed out above and to make it complete as indicated above, before a report is submitted to the Govt.. for orders.

The revised tracing recd. from the Collr. is not correct. He was required to indicate only the 'waste' lands in distinctive colours, but he has gone further in indicating in separate colours (parambokke lands originally classified as such and those subsequently transfd to the local Govt. by the Govt. of India, in ~~separate colours on the tracing~~, with some mistakes which will evoke further correspondence, if the tracing is sent to the Govt. as it is. Moreover the extent of waste lands in S.No. 597 shown on the tracing does not agree with that of plots B, C & D in the plan at (D) which has to be submitted to the Govt. The Collr need only indicate the waste lands on the tracings, without any discrepancies occurring between it and the plan of S.No. 597 required by the Govt.
